

Dear attendees to the 4th Patras Workshop at DESY,

thank you very much for registering to the meeting! Looking at the numerous very interesting contributions I am convinced that we will have a fruitful and lively meeting. This mail is to provide you with some more organizational information. The first part refers to all attendees, the second part is important only for the lecturers at the workshop.

Organizational information for all attendees:

=====

- Our workshop will start 18 June, 9:00 h. You will find the updated agenda at the conference website <http://axion-wimp.desy.de>.
- Please take note that Laura Baudis will give a DESY seminar the day before (17 June, 17:00) on "Cold Dark Matter Searches and the Xenon100 experiment": <http://www.desy.de/f/seminar/sem170608.pdf>.
- You may register for the workshop in the DESY main auditorium at the following times:
 - Tuesday, 17 June, 15:00 to 17:00 h (preferable),
 - Wednesday, 18 June, 8:00 to 10:00 h
 - or in each coffee break.
- As workshop fee a sum of 50 € was announced. However, while organizing the details we found out to have to be more specific here:
 - The workshop fee for the lectures (up to Saturday, 21 June, 17:00h) amounts to 50€
 - If you join also the harbour tour and dinner at the St. Pauli beach club on Saturday evening the conference fee amounts to 70€
 - Accompanying persons only taking part in the event on Saturday evening are asked to pay a fee of 40€

If possible, please notify me with an email on whether you want to participate in the tour on Saturday evening.

All participants are asked to pay the conference fee at registration. We can only accept cash and apologize for any inconveniency!

- We are very happy that Pierre Sikivie will give a public evening lecture on Thursday, 19 June. All conference attendees are invited for a "finger-food" dinner in the DESY bistro afterwards.

Information for lecturers:

=====

- Please have a look at the scientific programme at <http://axion-wimp.desy.de> for date, time and duration of your contribution. Notify me as soon as possible if there are some conflicts with your travelling schedule!
- If you have not done so already, please provide me with a brief abstract of your contribution.
- Please provide me with a powerpoint or pdf file of your contribution so that it can be copied to the workshop PC for presentation.
- We plan to publish workshop proceedings. Templates for the maximal 4 page long contributions will be available at the website at the end of next week.

Hopefully the website provides you with any information still missing in this mail. For any problems and questions do not hesitate to contact <mailto:barbara.wittmann@desy.de>, <mailto:julia.constanze.herrmann@desy.de> or anyone of the organization committee.

We wish you a convenient travel to DESY and look forward to meet you,

Axel Lindner for the organization committee
